

# January Board and Member Meeting

## **NEXT BOARD MEETING AND MEMBER MEETING**

Wednesday, January 23, 2019

- Board Meeting from 10:00am to 11:30am
- Member Lunch 11:30am to 12:30pm
- Member Meeting from 12:30pm to 1:30pm
- Great River Energy (12300 Elm Creek Boulevard, Maple Grove, MN 55369)

## **TOPIC**

As natural hazards increasingly impact public infrastructure like roads and storm sewers, governments responsible for these assets are implementing new policies for proactively managing these risks. This talk will summarize the methods and outcomes of two projects, MnDOT's Slope Vulnerability model and the City of Burnsville's geohazard analysis, and discuss how the results of these projects will influence project scoping and capital expenditures moving forward.

## **SPEAKER BIO**

Jen Holmstadt has 12 years of experience as an environmental consultant specializing in project management, geohazard risk assessments, and soil and fluvial geomorphology. Most recently, Jen has designed and implemented geohazard assessment programs for the energy, municipal, and transportation industries.
